

THE MOTHERSHIP HAS LANDED!!

“A FABULOUSLY ZANY MUSICAL COMEDY! Aliens have landed in Lanesboro! But instead of running for your life, you should run for the Commonwealth Theater box office to grab a ticket to this incredibly entertaining production. The songs work so seamlessly into the dialog and are blended with lively, humorous choreography. It's easy to get caught up in the setting and the humor, and not be aware of how hard the actors are working singing, dancing, and delivering lines with precise comic timing. If those of us living nearby don't fill the house every night, we ought to collectively slap ourselves!”

- *THE JOURNAL REVIEW*

“SILLY, GOOFY & MORE FUN THAN A BARREL OF SCI-FI, B-MOVIE MONKEYS!

Directed by Mark Steven Robinson, the show contains a sidesplitting cast who are definitely, hilariously in on the joke. *Zombies from the Beyond* is a campy blast!”

- *ROCHESTER POST BULLETIN*

“A CELEBRATION of American ideals and foibles in the Eisenhower Era!”

- *LA CROSS TRIBUNE*

“INSANELY COMICAL AND ARTFULLY CRAFTED WITH A POWERFUL CAST! You would think the script was written for Stela Burdt who blows the stage open with her enactment of a space traveler from the outer world in search of suitable men to rekindle her species. (Don't worry, it's tame stuff; besides, your kids know more than you think they do!) It's the stuff of comedy. I thought the man sitting next to me was going to hurt himself laughing. It is a far more complex show than is apparent, but you will be encouraged. And you will laugh in the process. Enjoy it, and maybe more than once!”
